

CRAIG'S RECIPE CORNER

Red Snapper/Rock Fish with Avocado & Crab Cream Sauce

You'll need:

- 1 whole filet of Snapper or Rock Fish w/skin on (divided into 4 pieces)
- 2 oz. jar Paul Prudhomme's Blackened Redfish Magic
- 2 cups Half & Half
- 8 oz. lump crab meat
- olive oil
- salt
- pepper
- 2 tbsp butter
- 2 tbsp flour
- 3/4 cup prepared Guacamole (can be purchased, medium spice)
- 1 Lime, cut in half for juicing
- Fresh Cilantro for garnish

Set oven for 275° f

Scale and clean skin side, slice skin every 1" just through the skin this will keep the fish from curling. Salt, pepper and sprinkle Redfish Magic on both sides of fish, set aside to rest.

In small sauce pan add Half and Half and guacamole, whisk and heat on low, melt butter in microwave remove and add flour to make Rue, add rue to cream and whisk till thickened (add rue in small amounts as to not over thicken sauce). Once to desired consistency fold in crab meat and keep on very low heat to stay warm.

In nonstick pan add enough olive oil to coat entire bottom of pan, heat on high til sign of smoke, then add fish skin side down and reduce heat to medium or just about smoking for about 5 min, flip over only once when skin looks crispy sear till 150 degrees in middle, remove and place skin side up on plate and let rest for 5 min.

Ladle cream and crab sauce on plate and place fish in center of sauce skin side up, squeeze fresh lime juice over fish and serve, garnish with sprig of cilantro.

Comfort Pro CHRONICLES

SPRING/SUMMER 2021

COMFORT PRO, INC. CELEBRATES 20 YEARS

CELEBRATING

20 Years 2001-2021

Comfort Pro is extremely honored to be celebrating its 20-year anniversary. Owners Doug and Craig Weisman opened its doors in 2001. Soon after opening, this Father and Son team hired their first employee, Robert Newpher. Robert is their Sales Manager and Vice President. Ben Hartman, Comfort Advisor, joined Comfort Pro during its first year as an apprentice. "We were a small knowledgeable company with an appetite for success," stated Ben. That appetite for success has helped Comfort Pro grow into the largest and most respected family owned and operated heating, air conditioning and geothermal contractor in the area. Now employing 49 team members, Comfort Pro performs residential and commercial work in Berks, Chester, Lancaster, Lebanon, Lehigh, Montgomery, Schuylkill, and York counties.

In their first year, new home construction was their primary business. Within the first few months they started a service department. Air conditioning installations and repairs, emergency services, and geothermal heating and cooling quickly added to their list of services. Today, from their office and warehouse located at 109 Dries Road, Reading, built in 2004, they continue to offer their original services. Air duct cleaning was added in 2007, and in 2016 they became a Lowe's Lennox Premier Dealer.

Dawn Eagle, Service Supervisor, started working at Comfort Pro in 2006 as a Service Dispatcher. When Dawn joined the team there were three Installation/Service Technicians. "Today there are five dedicated service technicians, and we are looking for the sixth. We use an automated dispatching system with iPads," says Dawn. As an industry leader, Comfort Pro makes sure they are always providing cutting edge technology for their staff and their customers.

This is one way they continue to have success throughout the years.

Ben said that he believes customers choose Comfort Pro because of our commitment to meeting the customer's needs.

A team environment is important to Comfort Pro employees, and everyone is family Robert said, "I love being part of the Comfort Pro family because we give back to our community and everybody is here to help each other. It's a team effort and I love being part of the team."

Heating & Air Conditioning

...continued from front page.

For Dawn, Comfort Pro is her second family. “Everyone makes you feel like you are part of the family. We help each other out when needed. Whether it is changing your shift so someone can see their child at a school event or taking a child to a doctor appointment, someone will always be there to help you. Even when you are having a bad day you can always count on someone to come in and make you smile,” commented Dawn.

Comfort Pro has built a reputation as a company you can rely on for dependable service and value. Their mission is simple: to establish great lifetime relationships built on the foundation of unsurpassed Value, Innovation and Honesty. Their mission begins the moment you call, with a courteous greeting and prompt attention to your needs. Their service and installations are held to the highest standards of the industry and they make a commitment to you that your satisfaction is first and foremost to them. Each person in their organization is committed to providing the highest level of customer care and ensuring that your business and family is comfortable and safe.

Dawn said, “when you deal with the Comfort Pro team you will be dealing with caring, helpful, proactive, and considerate people who listen to your needs.”

Craig Weisman, President of Comfort Pro said, “one of the keys to our success is our 100% satisfaction guarantee. Our guarantee is not just words. Our company has given customers money back for repairs that have worked and not worked, we have given free maintenance contracts to customers and even installed a brand new system to keep customers coming back. Customers always come first.”

Doug Weisman, CEO of Comfort Pro says, “Comfort Pro looks forward to providing you heating and air conditioning services for years to come, and continues to put you, the customer, first by offering superior service from an honest, caring team of professionals!”

MEET THE COMFORT PRO TEAM

“ I already felt like part of the team before I was even hired. Comfort Pro was a natural fit. ”

Jacob “Jake” Buckwalter joined the Comfort Pro team in April 2014 as a Service Technician after his interview with Craig Weisman, Comfort Pro President. During the interview, Craig introduced Jake to the Comfort Pro team, he gave him a tour of the building, and they chatted and reviewed his skills. “I already felt like part of the team before I was even hired. Comfort Pro was a natural fit,” said Jake.

In 2019, Jake was promoted to his current position of Service Manager. He said “there are so many things I love about my job. I love my coworkers, keeping on top of new technology and sharing it with our team, and troubleshooting with our technicians, customers and even our sales team.”

In life, Jake’s pride and joy are his children: Arwen,16, Juliette,13, Azaria,13, and Zerick,10. “My greatest achievement to date hands down is my kids. I am so proud of all of them,” says Jake.

All of Jake’s children attend schools in the Hamburg Area School District and excel academically. Arwen is actively involved in marching band which is no surprise as she loves music. In addition to music, Arwen loves pandas and astrology. Juliette is in the band and loves Japanese culture and anime. Azaria is also in the band and loves dragons and dinosaurs. Zerick is a typical 10-year-old boy who loves to be active and of course anything Minecraft!

When not busy with his children, Jake is a tinkerer. “I have built cars and computers, I can fix almost anything I get my hands on. But I cannot wrap a present to save my life and don’t look at my handwriting,” says Jake. And when not in the garage or fixing something, you may find Jake watching a Reading Royals or Hershey Bears game or enjoying some R&R by a small lake surrounded by trees.

His favorite quote is “today is the tomorrow you worried about yesterday.” Jake lives for today. And the five things he could not live without: Mountain Dew, a good laugh, internet, his phone, and his family. “I make the best of everything I do,” says Jake. So stop what you are doing and follow Jake’s lead. Make the best out of everything you do today and moving forward!

Molly’s Yard: 4 Ways to Keep Your Pooch Cool this Spring & Summer

The winter jackets are away, short sleeves are here and shorts are right around the corner. You and your four-legged best friend are ready to spend even more time enjoying the outside together! You know how to keep yourself cool but what about your best friend? Here are ways to help them stay cool and enjoy spring and summer!

WALKING ON SUNSHINE

There’s a general rule of thumb when walking your dog in the spring and summer time: if it’s too hot for your hand, it’s too hot for your pups’ paws. When the sun has been baking the sidewalk all day, it becomes incredibly harmful for your dog to walk on. With this in mind, try to stick to grassy areas and away from asphalt or other super heat-absorptive surfaces. Worst case scenario, you can always invest in booties for your dog!

BACKYARD AS WATER PARK

Summertime is an awesome season for dogs to get out and play. With kids and some parents home, everyone can enjoy some time with the family pet. However, with sunshine comes necessary shade. Make sure to stay away from dog houses, as they don’t offer the same type of free-flowing air that the shade from trees do. Sprinklers and small plastic pools can easily provide some water-park fun for your pooch. Also, make sure that water bowls are constantly filled and don’t be afraid to throw some ice cubes in too! The goal is to make sure your backyard gives your dog access to shade and water.

KEEPING IT COOL

Because you can’t bring your pet everywhere, nor should you in the warm weather, there are going to be many times that your pup is at home. Make sure you’re cognizant of the temperature in your household and that all of your cooling appliances are working properly. Keeping your animals nice and cool in the house is imperative in the warm spring and summer months!

EXERCISE RIGHT

Many people want to travel outdoors in this time of year and take their pets to parks, fields, etc. However, exercising with your pet in the warm weather is not always the smartest activity to do. In order to keep you and your pet fit, try opting for earlier morning, or evening, hours when the sun’s intensity isn’t so high.
